**Namasté!** -We have always believed that our food should be fresh, vibrant and above all authentic, and the same has to be said of our wine list. Wine is an essential part of the dining experience and we have chosen wines that enhance this experience by marrying well with our selection of dishes. All the wines have been selected with the view that you will explore our menu just as you will our wine list.

Ethical Wine: As you know we always have tried to source our ingredients from small family owned producers who farm their produce ethically and with minimum impact on the environment. The wine industry, as a whole, has been slower to catch up with this ethos, but we have been working hard with our suppliers to curate a wine list that reflects our values. Namasté! - **Cyrus & Pervin Todiwala.**
